2170, rue Bishop, salle 101*

*Gender in Translation highlights the politics of identity involved in the transmission of literary texts. It explores the role of influential "culture-brokers" such as Aphra Behn, Madame de Staël, Eleanor Marx, Constance Garnett and...Gayatri Spivak. The book examines contemporary debates around feminist translation practices, feminist issues in Bible translation, the "missed connections" of transatlantic feminism, and the indifference to language in Anglo-American culture studies.*
